

Manual

Use cases

- Getting started
- How to connect with Netzer?
- 230 V dimmer
- Connection of a scale model servo
- Reading out S88 bus from Ethernet
- Detecting the distance to an object with an ultrasonic sensor

Firmware projects

Since version 1.5 there are some projects within a release. The projects are build from a common code base and project specific code.

In the current version 1.6 the following projects exist:

Name	Description
IO	This project has the typical Netzer properties from former versions. Not included anymore is the SPI Slave functionality , which is currently not maintained.
erase_eeprom	This project erases the Netzer EEPROM.
print_eeprom	Simple command line program for checking and erasing the Netzer EEPROM.

Common topics

- License packets & Downloads
- Netzer pin map
- Firmware updates
- Reset to factory settings
- Access control
- Startpage webinterface
- Network settings
- Description of the command interface
